Kiptom Dance Center

March Newsletter 2020

We are onto the next part of the dance season where we are working on the show. The staff at Kiptom is working hard to put on a great production. The students are starting to learn their dances. We ask that you encourage them to practice their routines and show up to class each week. This affects not only your child when they miss the lesson but also the other students in class. We will be posting a lot of additional information regarding the upcoming show. We ask that you be aware of all handouts and feel free to ask any questions along the way. If you haven't already friend us on Face Book where I will keep all handouts on line.
