

3/23/20

And we are going LIVE!!!!

Few things to remember to get your dance classes available to you.

- 1 Make sure that you are set up with ZOOM. This is a free App. If you have multiple children taking dance at the same time you will need to set up 2 different devices at home. You will also need to set up 1 email address per child.
- 2 When it is time for your scheduled class:
 - Log into your portal
 - Go to today's schedule and you will see the class
 - Click on the video icon
 - A disclaimer will pop up
 - Accept the disclaimer and submit

This will automatically take you into your Zoom account for the scheduled class. Note you do not need to set up in Zoom and parent portal to take class. Just sign into your portal by going to kiptomdancecenter.com

- 3 Please sign in **10-15 minutes** early to make sure that you are in when class starts
- 4 Classes will be **55 minutes** long so that the teachers can get set up to get into the next class.

This will be a challenging but exciting week for us all. I ask through this process that we just be patient and realize that we are all on a learning curve. I am so looking forward to seeing all my dancers and families again. I missed you all. We can get through this as a united team. Let's keep the lines of communication open. Life is full of opportunities. I am so blessed to have the chance to keep our studio going through this epidemic. Look at the valuable lessons we are learning and teaching our children. Thank you for your loyalty, patience and trust.
